

Reviewer's report

Title: Inter- and intra-observer variability in Sonographic measurements of the cross-sectional area of the umbilical cord and its vessels during pregnancy

Version: 1 **Date:** 5 October 2008

Reviewer: Edoardo Di Naro

Reviewer's report:

I think that this manuscript is well done; it doesn't need any major or minor revision.

Discretionary Revisions:

I recommend to measure both umbilical arteries diameters and areas in order to their tiny difference (1mm) to be more exact

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests
