

## **Author's response to reviews**

**Title:** Assessing regional differences in contraceptive discontinuation, failure and switching in Brazil

### **Authors:**

Iuri C Leite ([iuri@fiocruz.br](mailto:iuri@fiocruz.br))  
Neeru Gupta ([neeru.gupta@sympatico.ca](mailto:neeru.gupta@sympatico.ca))

**Version:** 4 **Date:** 25 June 2007

### **Author's response to reviews:**

Thank you for the useful comments and editing suggestions. We have accepted almost all of the proposed edits. The only exception is in the methods section, where we have retained the term "sexually experienced " (i.e. those who have ever had sex), rather than accepting the proposed term "sexually active" (which tends to infer current activity).
